Guy Armitage is a long-time Peace Energy Co-op member and supporter. In 2015 he contracted Peace Energy to design and install a 12-kilowatt grid-tied solar array for his home in Hudson's Hope, BC.

This is Guy's second year of producing more power than he needed, and has been paid by BC Hydro for that excess.

**Congratulations Guy for achieving your goal of being electrically net-zero for the second year in a row!**

***"Hi there. Just thought I would pass along this X-mas gift from BC Hydro I just received. That's 2 years in a row now. I couldn't be happier with the system! All the best to the good folks at Peace Energy Cooperative and a prosperous 2017."***
